

SMART BUTTON

A discreet, compact, Bluetooth wearable personal safety accessory.

The Smart Button works via Bluetooth with our personal safety Smartphone app. A simple press is all it takes to raise an alarm!

Utilising the benefits of wearable technology, our Smart Button can be worn in a number of different ways. Ideal for public-facing lone workers:

Belt Clip

Watch

Pendant

This device is suitable for the following types of role:

Fixed Site

Mobile

Public Facing

SOS ALARM

With a simple press of the Smart Button, an alarm will be discreetly raised at our 24 hour operated Alarm Receiving Centre.

LOCATE NOW

The device utilises your Smartphone's GPS capabilities to inform our Controllers of your exact location.

PEOPLESAFE PORTAL COMPATIBLE

Our Smart Button, in conjunction with the app is fully compatible with our online Peoplesafe Portal.

SMART BUTTON FEATURES

- Connects to your Smartphone via Bluetooth connectivity*
- The device overrides your smartphone's keypad lock with a simple press.
- No need to charge, works via a long lasting, replaceable watch battery.
- Battery usually lasts for a year and battery life info can be viewed in the app menu.
- Utilises the phone's GPS & audio capabilities to protect lone workers in an emergency.
- The button is waterproof to 1m (3.3ft) of depth for 30 minutes.
- Alarm activations will be immediately responded by Controllers in our 24/7 Alarm Receiving Centre, accredited to BS 8484:2016 and EN 50518.
- Works with Android and iPhone smartphones

Apple

Android

*Only compatible for Smartphones with Bluetooth 4.0 or above
